PROFESSIONAL EXPERIENCE:

MFS Investment Management

Boston, MA

Quant Research Associate Intern

June 2024 – August 2024

- Aggregated, cleaned, and standardized data from 10+ equity funds to calculate risk-adjusted metrics (alpha, beta, volatility, etc.), identifying key drivers of return via performance attribution models
- Developed automated reporting pipelines using Python, SQL, and FactSet to generate 15+ daily-updated Tableau dashboards for SMA portfolios, tracking growth, turnover, portfolio similarity, and return performance
- Leveraged the Axioma API to build Tableau dashboards visualizing time series of model-driven trade signals
- Supported the launch of 5 active ETFs on the NYSE through performance reporting and factor analysis
- Participated in biweekly research meetings on new and existing factors, model diagnostics, and portfolio optimization

UBS Financial Services

Rockland, MA

Private Wealth Management Intern

November 2023 – January 2024

- Analyzed portfolio allocation strategies for high-dividend yield large-cap companies within a \$500M fund sleeve
- Researched and presented detailed analysis on telehealth companies, cryptocurrencies, and individual equities, culminating in buy/sell recommendations based on company data and financial ratio analysis
- Participated in weekly development series with wealth management, hedge fund, and private equity executives

Flipside Crypto

Boston, MA

Freelance Data Analyst

January 2022 – December 2022

- Designed 40+ dashboards analyzing transaction volume, success rates, and unique user activity in the crypto ecosystem
- Organized blockchain data of tokens, coins, and Non-Fungible Tokens using Snowflake SQL software
- Solved analytical challenges through structured bounty programs using a free, open-source data platform

LEADERSHIP AND OTHER EXPERIENCE:

Boston College Computer Science Department

Chestnut Hill, MA
